

Beyond Belief

*Becoming the Mystics and Prophets
We Are Called to Be*

a workshop retreat with author/artist/activist

Jan Phillips

Healing the world begins with healing ourselves. As Ramana Maharshi reminds us: “The greatest service we can render the world is our own self-realization.” This means that we become the greatest light in the world when we master our own ordeals and connect our creative potential with our spiritual power.

Becoming a prophetic person starts with a spiritual practice. It moves from silence to thought to word and action. When our words and actions are rooted in our spiritual commitments, we become a light in the world and a force for good.

This workshop is an entry point into our own deep wisdom. Using the tools of music, poetry, storytelling and imagery, we explore the landscape of our own experience, mining it for insight and ideas about the work ahead.

- tap into the wisdom you carry in your body as a result of your life events
- understand the mystical connection between personal tragedy and creative transformation
- experience the freedom and joy of finding your voice and sharing your gifts
- become an agent of change as you re-shape your stories and share your light
